Remember — Before You Burn, Get a Permit

## Prevention is Everybody's Business

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a cooperating public.

Yet, despite all this, there still persists a disturbing note

58%, or 6 out of every 10 fires in 1959 were caused by careless smokers and debris burners.

10%, or 1 out of every 9 fires was caused by children.

Careless, indifferent, thoughtless and independent minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fire would radically change this picture. The rules are simple.

1. Before burning, secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning
3. Make certain your fire is DEAD OUT before leaving it.
4. Don't throw lighted matches, cigars and cigarettes from moving vehicles — use your ash tray.
5. Don't burn at home — Use your town dump and save yourself much possible difficulty, both personal and financial.

## (b) Superintendent Jason E. Boynton's Report

To the School Board and Citizens of the Barnstead School District, I respectfully submit my third report as your Superintendent of Schools.

### STAFF

We were indeed fortunate in retaining the entire teaching staff. These competent teachers serve us faithfully and help perpetuate a fundamentally sound educational program.

Mr. Paul Seavey has contributed much to educational progress and we are exceedingly fortunate to have such an outstanding young man as Principal of the Barnstead Elementary School.

### EDUCATIONAL PROGRAM

No conspicuous changes have been made in the curriculum but a greater respect for academic quality is discernible. The eighth graders who plan to attend Pittsfield High School next year have taken a complete battery of tests to help them select the right secondary courses. Guidance activities are very carefully planned to prevent unfortunate situations which result when students select subjects which do not square with their capabilities or future plans.

Instructional aids and supplies are furnished according to needs. New maps and globes have been provided to bring such material up to date. A few reference books are provided each year and these are especially helpful as teachers attend to the individual needs of pupils. The results from our standardized testing program compare favorably with similar results in many schools across the country.

### BUILDING

The new school is being kept very clean and sanitary by Mr. Charles Eastman, the custodian. We are indeed fortunate to have a custodian who takes such pride in his work. The grounds have been improved by the cutting of brush and the mowing of a much larger playground area.

A drainage trench extends along the rising land at the rear of the school and a paved section has been provided at

the side entrance. Shrubbery adds much to this most attractive elementary school building.

### ENROLLMENTS

We began the school year in September of 1959 with 140 pupils in attendance. This represents an increase of approximately 20 pupils over the previous year. We are expecting a few more than 140 pupils to enroll in September of 1960.

### EDUCATIONAL TELEVISION

We are indebted to the Barnstead Parent Teachers Association for their efforts in providing a television receiver early in the school year. Programs are being received in Conversational French, Elementary Science and New Hampshire History. The telecasts are being used to supplement teacher presentations and hold much promise as a new educational tool.

I am especially grateful to the Barnstead School Board Members, to all School Personnel and to the Citizens of Barnstead for their interest and cooperation this past year.

Respectfully submitted,  
JASON E. BOYTON  
Superintendent of Schools

## PART VI. AUXILIARY REPORT

### Report of the School Principal

To the School Board Members, the Citizens of Barnstead and Superintendent Jason E. Boyton: I submit my report.

I have been very pleased during the past year and a half to observe and evaluate the highly satisfactory and continual growth and development of Barnstead Elementary School. The growth of your school is reflected in the rapid increase in enrollment which has taken place during the past year. Enrollment has climbed from 120 in 1958—59 to 146 in 1959—60.

The curriculum of courses taught has not changed, but because of increased enrollments, new groups of children have been organized within the classroom by teachers for the purpose of teaching courses requiring group learning and activities. The increases in enrollment, therefore, should indicate a need for future expansion of the school. This expansion is not immediately necessary, but if the present growth trend continues, serious problems will arise which will hamper teaching effectiveness.

Wise expansion planning now will solve the crowded classroom problems as they arise.

I am pleased with the progress and growth of our students. Because of teacher planning and presentations, our students have performed very well in their class work, in our standard testing program and with high school courses. These results represent a great deal of conscientious effort by teachers and our students.

Barnstead Elementary School is proud to be the educational backbone of Barnstead and will continue to accept the challenge of this responsibility.

Respectfully submitted,  
PAUL E. SEAVEY  
Principal
